## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-14 and 43-56 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification lacks a detailed description of the claimed, "selection circuit", "computation circuit", "first program code unit", "second program code unit", and "third program unit" in the above claims.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-56 are rejected under 35 U.S.C. 102(b) as being anticipated by Konishi, U.S. Patent No. 5,313,245.

Regarding claims 1-14, the claimed "selection circuit" and "computation circuit" are met by the MPU in FIG. 2; and the claimed "driving circuit" is met by the DRIVE CKT in FIG. 2. Dependent claims are similarly met by the function of the claimed elements above.

Regarding claims 15-28, the claimed method steps of "selecting at least one first measured distance value..." and "computing an auto-focus data value..." are met by the function of the MPU in FIG. 2; and the claimed method step of "driving an image-forming lens..." is met by DRIVE CKT in FIG. 2. Dependent claims are similarly met by the function of the claimed elements above.

Regarding claims 29-42, the claimed "selecting means" and/or "means for selecting" "at least one first measured distance-value..." and "computing means" and/or "means for computing" "an auto-focusing data value..." is met by the MPU in FIG. 2; and the claimed "driving means for driving an image-forming lens..." is met by the DRIVE CKT in FIG. 2. Dependent claims are similarly met by the function of the claimed elements above.

Regarding claims 43-56, the claimed "first program code unit for selecting at least one first measured distance-value..." and "second program code unit for computing an auto-focusing data value..." is met by the MPU in FIG. 2; and the claimed "third program unit for driving an image-forming lens..." is met by the DRIVE CKT in FIG. 2. Dependent claims are similarly met by the function of the claimed elements above.
